

## Wireless Transmitter Pairing Instructions

1. Connect the transmitter to the USB power source.
2. Plug in the Speedwoofer and turn on the power.
3. The light on the transmitter will be flashing slowly. Push and hold the transmitter's pairing button until it flashes rapidly. Then release the button.
4. Immediately press and hold the pairing button on the Speedwoofer until the light on the transmitter becomes solid.
5. Release the button. Your Speedwoofer is now paired.
